Objective

Detail-oriented and motivated Full Stack Java Developer with strong expertise in front-end and back-end technologies. Skilled in designing responsive user interfaces, implementing business logic, and managing databases. Passionate about building scalable applications and eager to contribute to a growth-driven organization.

Technical Skills

- Front-End: HTML5, CSS3, JavaScript, Bootstrap, jQuery, Responsive Design (Flexbox, Grid, Media Queries).
- Back-End: Java, JDBC, Servlet, Spring MVC, Spring Boot, C# (WinForms), REST APIs.
- Database: MySQL
- Tools & Platforms: Git, GitHub, Eclipse, Visual Studio, Postman, MySQL Workbench.

Projects

Budget Bee (Java, Spring Boot, JSP, MySQL)

Implemented a full-stack expense tracker with features for tracking income, expenses, and budgeting through a responsive dashboard and secure backend.

Record-Handler (Java, Servlet, JSP, CRUD) Created a Java application to demonstrate foundational database operations — enabling create, read, update, and delete (CRUD) functions on structured datasets.

Gym-Member-Handler (C#, Windows Forms)

Built a desktop application to manage gym operations, including modules for member and employee record tracking, attendance, and fee management.

Responsive-Website (HTML5, CSS3, JavaScript, Bootstrap)

Developed a fully responsive e-commerce website for gamers, featuring a modern UI with dedicated pages for home, products, and about sections.
